

We are currently recruiting for an Industrial Door Systems Engineer: Must be experienced and be fully conversant with all types of Commercial and Industrial Roller Shutters, Sectional Overhead Doors, Fire Resistant Roller Shutters, Fire Curtains, Portcullis Grilles, Sliding Folding Shutter Doors, Steel Hinged Doors, Residential Garage Doors, Retractable Security Gates, Swing/Sliding Gates and Barriers. Good Rates of pay and company transport provided. Regular overtime available.

Purpose: The job purpose is to undertake installations, reactive works, repairs and servicing on a wide range of industrial doors, shutters, gates and barriers on client's sites. There will be a high degree of travel regionally and possibly some nationally. This may include working away from home. We expect you to work in a professional manner at all times, adhering to all H&S procedures.

Essential Requirements:

- You will have relevant experience working as an Industrial Door Field Engineer / Senior Engineer such that you could hit the ground running and not require any additional training to start work.
- You will have an excellent understanding of Industrial Doors, Roller Shutter, Gate and Barrier Equipment.
- You will have a Valid clean UK Driving license

The emphasis of the role is split into these main areas:

- To become part of the Service, Repair and Installation Team.
- To accept overtime when the business requires you to.
- To accept on-call rotation.
- To complete jobs in the time frame allocated.
- To submit paperwork following each job.
- To be able to train less senior engineers on different products.

Key Performance Indicators

- Completed Service, Repair & Call Out paperwork is submitted.
- The times allocated to Service, Repair & Installation jobs are achieved.
- Van stocks are monitored.

Skills, Education and Experience:

- Minimum 5 years' service / call out / repair and installation experience in the industrial door industry.
- Experience working as a Field Engineer within the last 3 Years.
- Full Clean UK Driver's Licence.
- Industry relevant training listed on your CV (City & Guilds, NVQ, 17th Edition, and Electrical Qualifications).
- Door Industry Manufacturer Product Training Certificates.
- All relevant cards/certificates (must have CSCS card, IPAF, PASMA, Working at Heights, manual handling, asbestos awareness)

Competencies/Knowledge

- Self-Motivation and drive to succeed.
- Communication and interpersonal skills (Both internal and external)
- Time management and organisation.
- Happy to travel
- Self-starter.
- Team player.
- Proactive problem solver.

Remuneration:

£20,000-£30,000 PA including Attendance Bonus for just turning up every day!

Company Vehicle

Company Mobile Phone

Contributory Pension

40 hours per week. Overtime paid upon completion of 40 hrs. 28 days' annual paid holidays (including statutory holidays).

Company Van supplied. Business Fuel paid for. PPE provided.
